

May 20, 2020 - Sherkston Laundry Closed Until Further Notice

We received notice earlier today that Niagara Region Public Health and Emergency Services have lifted restrictions on Sherkston Shores Resort and will allow residents to stay overnight, effective immediately.

In order to facilitate the re-opening for residents, Niagara Region Public Health has required that no communal spaces be open to the public. This includes public washrooms, etc. and also includes the laundromat.

We have reached out to Niagara Region Public Health for further clarification regarding the order to close Sherkston Laundry effective immediately. As more information is available to us, we will share it via post on this page.

We are aware of how important Sherkston Laundry is to many of you, especially for opening up your homes. We are working to compile a list of alternate service options for our customers. Information will be posted to this page and will also be posted at the laundromat entry door.

We apologize for any inconvenience.

Sherkston Laundry will remain closed until further notice.
